REQUEST FOR GRANT OF PETITION

KYOO Broadcasting Company (hereinafter referred to as "KBC"),
permittee of KYOO-FM at Halfway, Missouri, by its counsel, hereby
requests that the original petition filed in the above captioned
Rule Making Docket be granted. In support whereof, the following
is shown:

1. KBC and Ozark Mountain Broadcasting (hereinafter referred
to as "OMB"), permittee of KZPF(FM) at Ozark, Missouri, jointly
petitioned the Commission to substitute certain channels at Halfway
and Ozark which would allow for an enhancement of KYOO-FM at
Halfway to 6.0 kilowatts and an upgrade in facilities for KZPF(FM)
at Ozark to Class C2 operation.

2. Specifically, this rule making petition sought the
substitution of Channel 256A for Channel 226A at Halfway and the
modification of the KYOO-FM construction permit allowing operation

on the new frequency. Channel 256A meets all Commission channel spacing requirements for operation as a full Class A facility, 6.0 kilowatts at 100 meters above the terrain. The use of Channel 226A at Halfway only allowed for Class A operation with a maximum of 3.0 kilowatts at 100 meters above the average terrain. In addition, it was requested to substitute Channel 225C2 for Channel 225A at Ozark and modify the outstanding KZPF(FM) construction permit outlining operation with the new Class C2 facilities.

3. Although both KBC and OMB consented and agreed to the changes outlined in the Notice Of Proposed Rulemaking issued in the docket, counterproposals were submitted by Missouri Radio, Inc. (hereinafter referred to as "MRI") and Lake Broadcasting (hereinafter referred to as "LB"). MRI sought the allotment of Channel 256A as a first local service to the community of Humansville, Missouri, and LB sought the allotment of Channel 224A as a first local service to the community of Diamond City, Arkansas. Both the MRI and LB Counterproposals conflicted with the changes sought by the joint petitioners in the original Rule Making Petition.

4. On March 3, 1994, both MRI and LB withdrew their Comments and Counterproposals in this proceeding. A copy of the "stamped in" copies of those two requests are attached hereto as Exhibit 1. The withdrawals of MRI and LB remove any conflict with the original Rule Making Petition filed in this docket.

5. KBC asserts that since no conflict exists in this docket, a speedy issuance of a Report and Order outlining the changes to

the Commission's Table of Allotments requested by the joint petitioners would be in the public interest. The institution of full Class A service at Halfway and upgrade in facilities to Class C2 at Ozark would enable both facilities to reach and provide service to a much larger number of persons.

WHEREFORE, it is respectfully requested that the Commission speedily substitute Channel 256A for Channel 226A at Halfway and modify the outstanding construction permit for KYOO-FM, allowing operation on the new frequency; and substitute Channel 225C2 for Channel 225A at Ozark and modify the outstanding construction permit for KZPF(FM), allowing operation with upgrade facilities.

Respectfully Submitted,

KYOO BROADCASTING COMPANY

MOTION TO WITHDRAW OF MISSOURI RADIO, INC.

Missouri Radio, Inc. ("MRI"), hereby moves to withdraw its
Comment and Counterproposal to the Notice of Proposed Rule Making
DA 93-729 (released July 13, 1993) ("NPRM"), in the above-
captioned proceeding. In its original filing MRI requested that
the Commission allot Channel 256A at Humansville, Missouri as
that community's first local service.

In light of developments which have foreclosed MRI's ability
to construct the proposed station in Humansville, MRI requests
that the Commission dismiss its pending Counterproposal to
allocate Channel 256A at Humansville, Missouri.

Respectfully submitted,
